

# Maths – KS2 & KS3

RESEARCH  
SCHOOL

**Learn-AT**  
Associate Research School

The focus is on improving the quality of teaching. Excellent maths teaching requires good content knowledge, but this is not sufficient. Excellent teachers also know the ways in which pupils learn mathematics and the difficulties they are likely to encounter, and how mathematics can be most effectively taught.

This guidance is aimed primarily at subject leaders, headteachers, and other staff with responsibility for leading improvements in mathematics teaching in primary and secondary schools. Classroom teachers and teaching assistants will also find this guidance useful as a resource to aid their day-to-day teaching.

- Use assessment to build on pupils' existing knowledge and understanding
  - Use manipulatives and representations
  - Teach pupils strategies for solving problems
- Enable pupils to develop a rich network of mathematical knowledge

Costs

Free

Dates

14<sup>th</sup> June 2022

16:00 – 17:00
